- Acoustical Panel Solutions

PRODUCT OVERVIEW

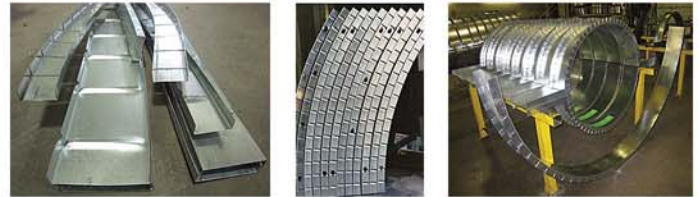

ACOUSTICAL PANELS SOLUTIONS

Our extensive range of integrated acoustic and architectural modular panel systems is ideal for suspended ceilings, walls, partitions and exterior soffits. We have a range of acoustic, decorative acoustic & perforated panels available as well as acoustic wall systems in a range of environmentally sustainable timber veneers, timber composites and fibre cement, our Acoustical Panels Solutions is the panel system of choice for leading architects, designers and fitout specifiers. Excellent acoustic performance, aesthetic appeal and design flexibility are just some of the benefits of using Build Corp Directs Acoustical Panels Solutions panels.

WALL PANELS & TRUSSES

Build Corp can offer you a variety of alternative construction methods which can be easily engineered to reach cost effective and innovative solutions. With offsite pre-fabrication being the order of the day, and a unique high strength, clinch riveting system for light gauge metal sections, the possibilities are endless...
